

PRO 2000 Unidirectional and Bidirectional Safety Gear without Stand

Product code: 100-101

Pro 2000 group progressive safety gears are processed as mono blocks from steel material.

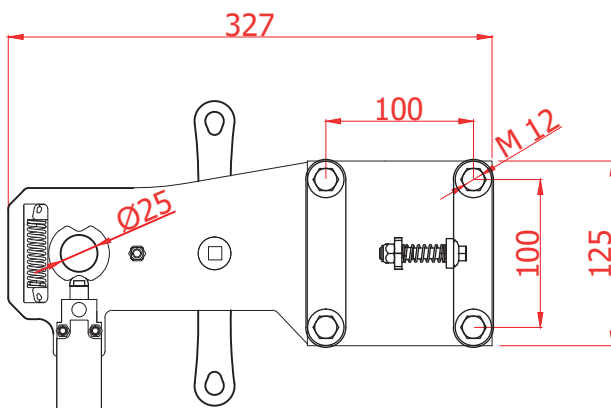

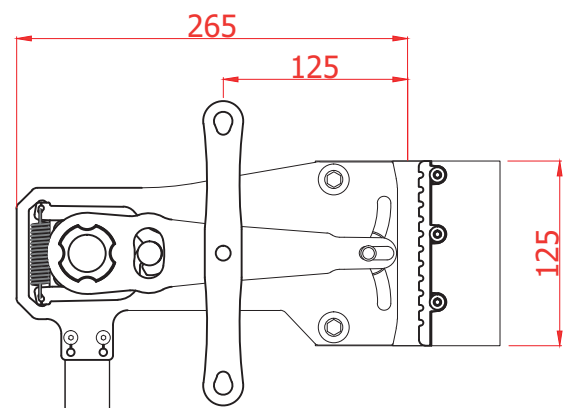

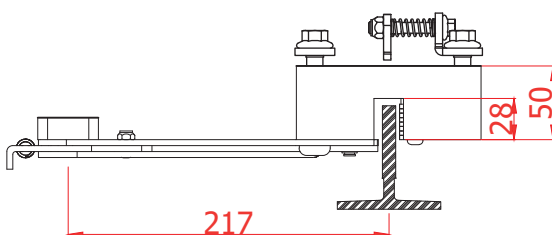

- There is a centering system on the safety gear and there is no need to make an adjustment,
- The lever mechanism of the safety gear operates from the side, so that no extra work is required on the suspension,
- There is a safety switch and trigger mechanism on the safety gear and it does not require any extra operation,
- Complies with TSE EN 81-20, EAC standards.
